Diphtheria—Carriers. (Reg. Bd. of H., Sept. 4, 1915.)

On September 4, 1915, rule 11 of the regulations¹ of the California State Board of Health for the prevention and control of diphtheria was amended to read as follows:

RULE 11. *Diphtheria carriers*.—Any person who has been free from symptoms of diphtheria for a month or longer and who harbors diphtheria bacilli is a diphtheria carrier and is hereby declared to be a menace to the public health. Any known or suspected diphtheria carrier shall be reported to the local health authority, who shall investigate and report to the State board of health. Pending the receipt of instructions from the State board of health, the local health authority shall isolate or quarantine the carrier if in his judgment the danger to the community necessitates such action. In the event of any known or suspected carrier leaving the jurisdiction of a local health authority, the State board of health shall be notified by the local health authority of the name of the carrier and his destination.
